Dear Friend,

Can you or your company donate **\$1,000** to help noteworthy engineering students succeed in San Diego? The American Council of Engineering Companies (ACEC) and City of San Diego Engineering and Capital Projects Department have developed a scholarship program to benefit local engineering students. The Engineering and Capital Projects Department and ACEC are committed to creating opportunities for students who have demonstrated a high level of interest and commitment to the engineering profession.

We are sponsoring this annual event as a fundraising activity to provide on-going financial assistance to outstanding students, through the scholarship program. This year, we need your help to reach our goal: **\$15,000** in new scholarship funds! Through your sponsorship and participation, we can achieve this goal.

With this goal in mind, we are proud to announce the 9th Annual Engineering Scholarship Golf Tournament presented by ACEC at Eastlake Country Club. **The tournament and awards banquet are scheduled for Friday, April 23rd, 2010.** Event details and sponsorship opportunities are listed on the reverse for your consideration. Please help us in providing educational opportunities to local students as they pursue their careers in engineering.

Thank you for your consideration and support.

Patti Boekamp, Director
City of San Diego
Engineering & Capital Projects Department

Joe Tognoli
President
ACEC, San Diego Chapter
